Collective Worship Reflections

This week we focused on the themes of being a community and ensuring we are giving our time to the right things, using a passage from 1 Corinthians 12 which talks about the early Christian church and how we all have different strengths as well as the story of when Jesus visited Mary and Martha. Topaz class shared excellent reflections on what they would do less of (mainly technology) to spend more time with family, especially those they had not seen very often because of Covid. Diamond class shared how they are all different from each other but how this is a good thing: Logan wrote "If we all had the same ideas it would be boring". Emerald class used an outline of the human body to visualise how the different people involved in making Abbas and Templecombe a fun place of learning are all linked and how they help each other and us.
